****STOP HERE****

- Don't go any further till you have all your towers at high level 20+

This is just an example of a good balanced base layout there are many variations that will work and are very strong. The mages are your big help with making dragons vulnerable .

If you need help until you have access to these towers let me know and I will help any way I can!! Alsop have a player that can help as well on an allies team.

The Diversity of this Base Style helps to defend against most dragons! Getting the towers up high and keeping the mage towers at same level or higher will help in the defense of the base.

Remember that we cannot get 100% defense as there are always bigger guys out there!!
